

CAMP

Live Oak

THE MOSQUITO

At Birch State Park

This Week at Camp:

This week's theme was "Three's Company! Tortoises, Snakes and Frogs." Campers learned how all of these three types of animals live together in the burrow of the gopher tortoise. In addition, park rangers spoke to us on how these animals live in their natural habitat. With our science presentation campers learned the importance of recycling by melting foam and molding it! In addition, we constructed an Everglades diorama including all our swamp creatures! Highlights of the week include a ranger led hike and reptile show learning about various reptiles and snakes that inhabit our environment. Join us next week for our "Fanciful Flyers" theme and learn all about the majestic birds all around us!
