

CAMP

Live Oak

THE MOSQUITO

At Mizell-Johnson State Park

This Week at Camp:

This week's theme was "Swamp Creatures." Campers learned all about crocodiles, alligators, and iguanas and how these scaly creatures live in their natural habitat. In science discoveries, we made amazing alligator and croc magnets! Highlight of the week was exploring the Everglades through an unforgettable airboat ride and watching a spectacular live alligator presentation in the Gator Pit! Campers also learned how the Everglades ecosystem supports thousands of different plant and animal species. Join us for next week's theme "Turtle Tracks" as we learn how Turtles, Tortoises, and Terrapins live within sand dunes and shorelines!
