This Week at Camp:

Welcome to week five at Camp Live Oak! This week our theme was "No bones within... discover the invertebrates!" and we learned all about the different invertebrates in our environment. We imitated our favorite invertebrates this week while crawling like crabs, moving like snails, and filtering like a sea sponge. In addition, we got to get up close with live clams, mussels, and lobsters! Also, we constructed our own underwater dioramas including all our invertebrate friends. Highlights included our visit to the Anne Kolb Nature Center! Join us next week for our theme, "Look sharp and listen... the Birds of Prey" as we observe hawks, eagles, and owls on the hunt!
