This Week at Camp:

We had an exciting week at Camp Live Oak with our "Look sharp and listen... the Birds of Prey" theme. Campers learned how to recognize and identify the raptors of the sky and discover how these birds use laser sharp focus to catch their prey. In addition, campers learned how to utilize cameras to identify various birds of prey. With our art skills, we constructed metal birds by bending and folding wire. Some highlights of the week included climbing high on the Rock Wall and listening to our guest speaker on how to reduce our plastic use to benefit our environment overall. Join us next week for our "Ocean Quest, Simple Stingers of the Sea" theme as we investigate various ocean creatures!
