

CAMP

Live Oak

THE MOSQUITO

At Mizell-Johnson State Park

This Week at Camp:

This week was an exciting week at Camp Live Oak! Campers had a week full of sharks with our theme “It’s Electric! Shark Week” and learned all about how these marine predators navigate the oceans. Campers learned to be as sensitive as a shark and felt the electricity and vibrations of life in the sea. We also investigated the conductivity of different waters and learned how different water types change electrical conductance through hands on experiments! Campers made their own Fishy-Mobile to hang in the wind as well. Highlights of the week included a fantastic field day event where campers participated in friendly, heart pumping competition! Campers really got the chance to work together and have a blast while doing it! Join us next week for our theme “March of the Marine Mammals” and learn how the warm-blooded creatures of the sea thrive in our oceans.
