This Week at Camp:

This week's theme was "Creepers, Crawlers, Buzzers and Web-makers!" In Science, campers learned all about the world of anthropods and worms through interactive activities. We learned how butterflies search for their nectar and how they pollinate different flowers. Our guest speaker, Ladybug Lori, taught us all about pinning. Campers got creative and created their own bug story and made Pop-up books as well. Highlights included spinning our own webs and discovering how spiders set their traps. Campers then adventured into the woods to look for these creepy crawlers in hidden areas of the park! In addition, campers learned team building skills and cooperation while canoeing, fishing, and paddle boarding. Don't forget to sign up for next week and join us for our "Invasion of the Swamp Creatures" themed week! It will include our field trip to Everglades Holiday Park with an action packed day of fun!

Value of the Week

Random Act of Kindness:

Display and perform acts of kindness towards fellow campers and staff. Helping a friend, picking up trash, or even cheering up a friend: all of these can allow campers to earn the "Golden Rake" award at the end of the week!

Important Reminders!
